Volunteer Influenza Vaccination Status

Any person employed at a district child care center and any volunteer who provides care and supervision to children at such a center shall be immunized against influenza, pertussis, and measles. If a person meets all other requirements for employment or volunteering, as applicable, but needs additional time to obtain and provide his/her immunization records, the person may be employed or volunteer conditionally for a maximum of 30 days upon signing and submitting a written statement attesting that he/she has been immunized as required. In addition, each employee and volunteer shall receive an influenza vaccination between August 1 and December 1 of each year. A person shall be exempt from these requirements only under any of the following circumstances:

- 1. The person submits a written statement from a licensed physician declaring either that immunization is not safe because of the person’s physical condition or medical circumstances or that the person has evidence of current immunity to influenza, pertussis, and measles.*
- 2. In the case of the influenza vaccine, the person submits a written declaration that he/she has declined the vaccination.*
- 3. In the case of the influenza vaccine required during the first year of employment or volunteering, the vaccine is not timely because the person was hired after December 1 of the previous year and before August 1 of the current year.*

In order to be considered exempt from Grant Preschool’s influenza vaccination policy
Please select one of the following

- I have received, and understand, information given to me about the risks and benefits of the influenza vaccination and am declining it at this time.
- The influenza vaccine is not timely because my volunteering begins outside the August 1 - December 1 time frame.

Conditional Volunteer Statement

Any person employed at a district child care center and any volunteer who provides care and supervision to children at such a center shall be immunized against influenza, pertussis, and measles. If a person meets all other requirements for employment or volunteering, as applicable, but needs additional time to obtain and provide his/her immunization records, the person may be employed or volunteer conditionally for a maximum of 30 days upon signing and submitting a written statement attesting that he/she has been immunized as required.

By signing below I understand that I have 30 days from _____ to obtain and provide a copy of my immunizations record (influenza, pertussis, and measles) in order to work/volunteer in the Grant Preschool. I further acknowledge that failure to submit my record within 30 days will prevent me from working/volunteering in the Grant Preschool.
